

Quality is in our nature

Declaration of Innovation

From : EUROL B.V.
Date : 01.01.2019
To : Whom it may concern

DEAR SIR(S),

HEREWITH WE (EUROL B.V., ENERGIESTRAAT 12, NIJVERDAL, THE NETHERLANDS, DECLARE THE FOLLOWING:

We would like to confirm that our sole agent in Egypt is National Motors Egypt for Eurol® LUBRICANTS products. These genuine products are imported from Holland and distributed under the trade name Eurol®.

As a result of this collaboration, National Motors Egypt and EUROL have invented the following innovations to provide better services to consumers and traders, for that we proudly announce the following:

First innovation:

Eurol B.V., the Netherlands manufactures green engine oils; fully synthetic, semi-synthetic and mineral oil grades including GR-X technology for a very high quality-level.

This is the first time that these mineral and synthetic oils are manufactured specifically in green oil technology and it is intended for highways, rough and very crowded roads, with the highest international oil standards.

Second innovation:

In addition to the first innovation, together we created special packages for several products. This range of packaging contains 3 litters with the continued presence of 4 litters packages.

This idea was developed for smaller engines that use 3 litters of oil, so that will save money for distributors and consumers. The HD-PE packages are designed according the highest international standards.

Eurol B.V., the Netherlands certifies to whom it may concern, that it provided these products and packages exclusively in cooperation with National Motors Egypt, the authorized and sole agent in the Arab Republic of Egypt (Osama Abdel Naby).

We hope that we have created something useful for all our valued customers and wait for more soon.

Trusting to have informed you sufficiently, we remain,
 with best regards,

eurol® B.V.
