

Nautic line - Mineral

Eurol Nautic L.10W-40 FCW

4 stroke oil for marine engines

Beschreibung

Eurol Nautic Line 10W-40 FCW is a motor oil that ensures an optimal lubrication and protection of 4 stroke in- and outboard marine engines requiring FC-W specification.

Eurol Nautic Line 10W-40 FCW fulfils the NMMA FCW requirements, such as protection against rust and corrosion through contact with (salt) water, a limited decrease in viscosity after long-term use and an excellent protection against wear and sedimentation, especially in case of fuel dilution*.

*Fuel dilution can happen in engines, when the motor runs for an extended time in neutral, and unburnt fuel leaks into the crankcase. Eurol Nautic Line 25W-40 FCW contains special additives that limit wear to a minimum both at low and high speeds.

Thanks to special additives, Eurol Nautic Line 10W-40 FCW will keep providing its high performance level even after the oil change term has passed. However, it is always best to ensure timely oil changes.

Performance level

- API SL
- JASO MA
- NMMA FC-W

Physikalische Eigenschaften

Farbe	braun	
Dichte bei 20°C	0.858 kg/L	ASTM D 4052
Viskosität, kinematisch bei 40°C	96.2 cSt	ASTM D 445
Viskosität, kinematisch bei 100°C	14.8 cSt	ASTM D 445
Viskositätsindex	161	ASTM D 2270
Viskosität, dynamisch (CCS)	4509 cP	ASTM D 5293
Sulfatasche	0.84 wt%	ASTM D 874
Flammpunkt	204 °C	ASTM D 93
Stockpunkt	-33 °C	ASTM D 97
