

Coolants & screenwash - Cooling fluids

## **Eurol Coolant -26°C GLX**

Silicate-free, long-life coolant TL-VW 774 F (G12+)

## **Beschreibung**

Eurol Coolant -26 GLX has especially been developed for the new generation cooling systems of modern car engines.

Eurol Coolant -26 GLX, based on ethylene-glycol, has been approved by Volkswagen (TL 774 D) and meets the Renault D standard.

Eurol Coolant -26 GLX prevents scale forming and offers excellent protection against cavitation. Moreover, it protects all metals against corrosion, particularly aluminum and alloy irons, even at high temperatures.

Eurol Coolant -26 GLX protects against freezing up to -26°C and contains environment-friendly additives (carboxyl-acids). This technology is known under the name OAT (Organic-Acid-Technology).

Eurol Coolant -26 GLX is to be used undiluted, so never top-up with pure water. Life-time of the product is 5 years or 650.000 kms for trucks or 250.000 kms for passenger cars, depending on which situation occurs first

Eurol Coolant -26 GLX is nitrite, amine, borate, phosphate, nitrate and silicate free. The product is compatible with traditional coolants of traditional quality.

## **Performance level**

- VW TL-774 F (G12+)
- VW TL-774 D (G12)
- BS 6580
- ASTM D3306
- ASTM D4985
- ASTM D4656
- Renault Type D
- NATO S-759
- JASO M325

## Physikalische Eigenschaften

Farbe	Rosa	
Dichte bei 20°C	1.058 kg/L	ASTM D 4052
Flammpunkt	111 °C	ASTM D 93
Frostschutz	-26 °C	ASTM D 1177

Artikelnummer E504145 Version 1.0, 25-03-2016
