

Greases

Eurol Lithium Grease EP 0

Heavy duty central lubricating grease with good pumpability

Beschreibung

Eurol Lithium Grease EP 0 is a high performance grease with EP additives. It is developed for trucks and buses, equipped with a central lubrication system (with exception of Willy Vogel systems, for which Eurol Lithium Grease EP 00 is recommended). Furthermore, this grease can be used in motor reducers and gearboxes for which an NLGI 0 grease is advised.

Eurol Lithium Grease EP 0 is semi-fluid and has a homogenous structure, providing a good pumpability, also for remote greasing and at low temperatures. Moreover, it offers excellent protection against corrosion, oxidation and water washout.

Eurol Lithium Grease EP 0 has Extreme Pressure properties, providing protection against vibrations and high (shock) loads, without losing its long life-time capability. Also at low temperatures, this grease maintains its high performance level.

Performance level

- DIN 51825: KPOK-30
- ISO- L-XC(F)CIB0

Physikalische Eigenschaften

Farbe	Gelb-braun	
Dichte bei 20°C	0.9 kg/L	ASTM D 4052
NLGI Konsistenzklasse	0	
Verdickertyp	Lithium	
Base oil type	Mineral	
Grundöl Viskosität	190 cSt	ASTM D 445
4-ball weld load	260 kg	ASTM D 2596
Temperaturbereich	-30 – 120 °C	
Dropping point	160 °C	

Artikelnummer E901020
