Mineral motor oil for mixed fleet

## Product information

Eurol Bediga 25W-60 is an engine oil that ensures optimal lubrication for older cars and light commercial vehicles with gasoline, LPG, and diesel engines.

Eurol Bediga 25W-60 can be used in engines equipped with turbocharging, multi-valve technology, and engines equipped with a catalytic converter.

Eurol Bediga 25W-60 offers excellent protection against wear of all engine components, which are also extremely well protected against rust and corrosion. Special dispersants keep soot and other dirt in suspension.

Eurol Bediga 25W-60 also contains special additives that ensure the oil does not thicken due to oxidation, even at high temperatures.

Due to the stable viscosity index improver, the viscosity will decrease very little, so Eurol Bediga 25W-60 continues to build a stable lubricating film between moving parts even after a long period.
