Eurol PLF 5W-30

Fully synthetic long-life engine oil VW 504.00/507.00; MB 229.51

Article number E100074 Version 1.1 29/07/2025

Produktinformatie

Eurol PLF 5W-30 is a fully synthetic engine oil for use in gasoline, LPG, and diesel engines of passenger cars and light commercial vehicles equipped with particulate filters. This product is specially developed for passenger cars and light commercial vehicles of the VAG group (Volkswagen, Audi, Seat, and Skoda) and is suitable for very long drain intervals (up to 30,000 km for gasoline engines and 50,000 km for diesel engines).

Eurol PLF 5W-30 provides an extremely fast and stable lubricating film at cold start and maintains this film at high temperatures, while simultaneously minimizing friction.

Eurol PLF 5W-30 is developed with Eurol OPT additive technology and contains less phosphorus, sulfur, and phosphate. This prevents the exhaust system components (particulate filters and catalysts) from clogging and extends their lifespan.

Eurol PLF 5W-30 is suitable for all VW engines since 2007.

This oil is not suitable for R5 and V10 engines before 2007. For these engines, VW 506.01 is explicitly prescribed. Eurol Super Ultra II 0W-30 is the recommended product for this application.

Further tests have proven that the product meets the specification MB 229.51; therefore, this oil is not only universally applicable for Volkswagen but also for Mercedes.
