## Fuel economy, fully synthetic engine oil for diesel and petrol engines

Article number E100182 Version 1.0 14/05/2025

# Produktinformationen

Eurol Ultrance ST 0W-20 is specifically developed for Peugeot, Opel/Vauxhall, and Citroën engines, in line with the PSA B71 2010 specification. It is also compatible with engines requiring ACEA C5 performance.

This engine oil is a low viscosity oil that improves fuel efficiency while still providing robust wear protection, even during prolonged use at elevated temperatures. Suitable for both gasoline (including (T)GDI) and diesel engines, as well as engines running on alternative fuels such as LPG, CNG, biodiesel (B10), ethanol (E85), and even cars with hybrid engines.

The cleaning properties prevent deposits in the engine and turbo throughout the entire lifespan.

Eurol Ultrance ST 0W-20 is characterized by its shear stability, minimal evaporation, and excellent cold start performance. It is an ideal choice for numerous Stellantis vehicles that comply with Euro 6 standards and CO2 restrictions.
