Product information

Eurol Hykrol FA 10W-30 is specifically developed for transmissions of combined bulldozers, tractors, and other agricultural machinery, fluid couplings, power steering, hydraulic systems, and torque converters.

Additionally, Eurol Hykrol FA 10W-30 is suitable for applications that meet, among others, the Fendt CVT FWN 81001 specification.

Eurol Hykrol FA 10W-30 has very favorable friction properties and is therefore extremely suitable for "wet brake" systems. It prevents the so-called stick-slip effect.

Eurol Hykrol FA 10W-30 has a high viscosity index, a very strong oil film, and good EP and anti-wear properties. It offers good protection against corrosion, oxidation, and foaming.
