# Eurol Hykrol CT Fluid

**UTTO for agricultural transmissions, clutches, final drives and wet brakes**

Article number E105825 Version 1.0 04/08/2025

## Product information

Eurol Hykrol CT Fluid is an oil specifically developed for transmissions, hydraulic, and oil-cooled brake and clutch systems of agricultural, garden, and industrial tractors. Due to its low pour point, this oil is particularly suitable for winter applications.

Eurol Hykrol CT Fluid has a very favorable friction characteristic and is therefore ideally suited for wet brakes systems. It prevents the so-called 'stick slip' throughout the year, and the associated noise.

Eurol Hykrol CT Fluid is suitable for modern disc brake materials. It also provides ample protection against wear, oxidation, corrosion, and foaming and has a long lifespan.
