Eurol LHM+ Fluid

Especially for brake, suspension and power steering systems of Citroën

Article number E108670 Version 1.0 06/07/2026

Product information

Eurol LHM+ Fluid is a mineral fluid specifically developed for brake and suspension systems, as well as power steering, particularly for Citroën. Eurol LHM+ Fluid should not be mixed with 'DOT' brake fluids.

Eurol LHM+ Fluid has a very high viscosity index. As a result, the fluid is practically not subject to viscosity changes due to temperature variations.

Eurol LHM+ Fluid protects the system against oxidation. Due to its high boiling point and insensitivity to water, it can be used sustainably and safely when a fluid of this type is prescribed.

Performance level

- PSA B71 2710 (LHM Plus)

Physical properties

Characteristic	Value/Result	ASTM Standard
Color	Green	
Density at 20°C	0.84 kg/l	ASTM D 4052
Viscosity, kinematic at 40 °C	18.8 cSt	ASTM D 445
Viscosity, kinematic at 100 °C	6.2 cSt	ASTM D 445
Viscosity index	325	ASTM D 2270
Flash point	124 °C	ASTM D 92
Pour point	-36 °C	ASTM D 97
