

Eurol MTF 75W-85 FE GL5

Fully synthetic gear oil with fuel-saving properties

Article number E110081 Version 2.1 15/04/2025

Product information

Eurol MTF 75W-85 FE GL5 is a fully synthetic fuel-saving transmission oil, which can be used in manual transmissions and final drives where GL-5 is prescribed.

Eurol MTF 75W-85 FE GL5 is highly compatible with synchromesh and ensures that shifting is very smooth even at low temperatures.

Eurol MTF 75W-85 FE GL5 has excellent pressure absorption capacity that can handle very heavy loads and vibrations. The viscosity decrease due to heavy loads is minimal, ensuring that this oil guarantees the correct viscosity during extended drain intervals (and in certain cases, lifetime filling).

Eurol MTF 75W-85 FE GL5 contains special friction reducers, which ensure sustainable fuel savings and reduce heat development.

Eurol MTF 75W-85 FE GL5 provides adequate lubrication at both very low and very high temperatures and offers protection against corrosion, wear, thickening, and deposits.

Eurol MTF 75W-85 FE GL5 is compatible with most elastomers and sealing materials and does not foam under extreme loads.
