Article number E110616 Version 1.1 15/04/2025

Product information

Eurol Translube PD 75W-90 GL5 is a universal transmission oil, which can be used in manual gearboxes and final drives where GL-5 is prescribed.

Eurol Translube PD 75W-90 GL5 can be applied in the entire drivetrain, and contains specially developed additives that reduce fuel consumption and eliminate shifting problems. Due to this unique composition, not only is wear minimized, but also corrosion and foaming, while the oil is protected against thermal oxidation even at elevated temperatures.

Eurol Translube PD 75W-90 GL5 is highly compatible with synchromesh and ensures that shifting is very smooth even at low temperatures.

Eurol Translube PD 75W-90 GL5 has an excellent load-carrying capacity that can handle very heavy loads and vibrations. The decrease in viscosity due to heavy loads is minimal, ensuring that this oil guarantees the correct viscosity during extended drain intervals.
