

Transmission oils - Semi-synthetic

## Eurol Translube PD 75W-90 GL5

Synthetic transmission oil for manual gearboxes and final drives

### Description

Eurol Translube PD 75W-90 GL5 is a universal synthetic transmission/gear oil which can be applied in both manual gearboxes as well as in final drives, where an API GL-5 quality oil is prescribed.

Eurol Translube PD 75W-90 GL5 can be used for the complete driveline. The product contains special additives reducing fuel consumption and eliminating shifting problems. Due to this unique formulation, not only wear but also corrosion and foam building are reduced to a minimum. At high temperatures the oil is protected against thermal oxidation.

Eurol Translube PD 75W-90 GL5 can be used in synchromesh gearboxes and ensures easy and smooth shifting, even at low temperatures.

Eurol Translube PD 75W-90 GL5 shows excellent EP (Extreme Pressure) characteristics to cope with heavy loads and vibrations. Viscositydrop, caused by heavy loads, is minimal so that this oil guarantees the right viscosity, even at prolonged drain intervals.

### Performance level

- API GL-5
- MIL-L-2105 B/C/D

### Physical properties

Colour	Yellow	
Density at 20°C	0.868 kg/l	ASTM D 4052
Viscosity, kinematic at 40°C	87.6 cSt	ASTM D 445
Viscosity, kinematic at 100°C	15.1 cSt	ASTM D 445
Viscosity Index	182	ASTM D 2270
Flash point	160 °C	ASTM D 93
Pour point	-39 °C	ASTM D 97
