

Automatic transmission fluids - Fully Synthetic

## Eurol ATF 7100

High-tech Full Synthetic Automatic Transmission Oil

### Description

Eurol ATF 7100 is a full synthetic automatic transmission oil specially developed for Mercedes Benz NAG2 automatic transmissions.

Eurol ATF 7100 is formulated with high quality synthesized base oils and with the latest additives. This to guarantee a constant high level of its unique properties during use.

Eurol ATF 7100 can be used for fill up or for refilling an automatic transmission, where a performance level of MB 236.14, (and also) MB 236.12 and MB 236.10 is recommended (except with 4Matic systems).

Eurol ATF 7100 has a stable and high viscosity index and a low pour point. The lubricating properties and friction characteristics are carefully adjusted to obtain comfortable shifting and fuel reduction.

Eurol ATF 7100 offers excellent resistance against oxidation, corrosion and foam formation, resulting in a constant performance during its lifetime.

Eurol ATF 7100 could also be used as a problem solver for automatic transmissions, which have less comfortable shifting properties.

### Recommended for use

- MB 236.14

### Physical properties

|                               |            |             |
|-------------------------------|------------|-------------|
| Colour                        | red        |             |
| Density at 20°C               | 0.839 kg/l | ASTM D 4052 |
| Viscosity, kinematic at 40°C  | 30.1 cSt   | ASTM D 445  |
| Viscosity, kinematic at 100°C | 6.1 cSt    | ASTM D 445  |
| Viscosity Index               | 156        | ASTM D 2270 |
| Flash point                   | 203 °C     | ASTM D 93   |
| Pour point                    | -45 °C     | ASTM D 97   |
