Eurol Multisept ISO 220

Mineral gearbox oil for application in industrial gearboxes

Description

Eurol Multisept EP ISO-VG 220 is a gearbox oil, especially developed for industrial applications, like oil bath lubrication of heavy and/or shock loaded gear drives and worm wheel gears, circular lubrication, and for atomized lubrication.

Eurol Multisept EP ISO-VG 220 is a so called Mild EP (Extreme Pressure) oil with a high load carrying capacity for an excellent absorption of sudden peak loads.

Eurol Multisept EP ISO-VG 220 protects metal parts (also non-Ferro metals) against rust and corrosion, even when water has entered the system. Water is rapidly separated from the oil. The excellent seal compatibility prevents seal deterioration and swelling.

Eurol Multisept EP ISO-VG 220 offers excellent protection against oxidation, extends equipment lifetime, has a low foaming tendency and very good anti-wear properties. Moreover, it also prevents the forming of deposits and sludge.
