

Scooter oils 2T - Semi-synthetic

Eurol Spartamet TTX

Two-stroke oil for Spartamet mopeds

Description

Eurol Spartamet is a 2-stroke oil, especially developed for the lubrication of the so-called Spartamet mopeds.

Eurol Spartamet is available in two versions: TTX and SX. Both oils protect the little engine from (carbon) deposits on the piston and provide a complete combustion as possible. The TTX version is a more robust product, producing even less smoke and less deposits.

Both products contain special dispersing additives preventing deposits, also at low temperatures.

Eurol Spartamet easily mixes with (lead-free) petrol to a homogeneous "pre-mix". The bottle shows a calibration, by which the right mixing ratio can always be achieved.

Performance level

- API TC
- JASO FC

Physical properties

Colour	Green	
Density at 20°C	0.864 kg/l	ASTM D 4052
Viscosity, kinematic at 40°C	64.8 cSt	ASTM D 445
Viscosity, kinematic at 100°C	9.4 cSt	ASTM D 445
Viscosity Index	124	ASTM D 2270
Flash point	92 °C	ASTM D 93
Pour point	-18 °C	ASTM D 97
