# Eurol Chain Lube Spray Cross & Off Road 400ML

High performance chain spray for cross- and offroad applications

## Description

Eurol Chain Lube Spray Cross & Off Road is a chain spray with Triple-Tech additive technology, especially developed for chains operating in dusty conditions. Eurol Chain Lube Spray Cross & Off Road has a high protection against wear, providing a long and durable protection of the sprockets and the chain.

Eurol Chain Lube Spray Cross & Off Road has an excellent penetrating ability, ensuring that the pins in the chain, as well as the bushings, receive proper lubrication, allowing for a supple chain, even after being subjected to dust and dirt.

To be able to offer the performance of the Eurol Chain Lube Spray Cross & Off Road over a longer period of time, the spray has an excellent adherence to the chain. This allows the spray to stay in place, regardless of the weather.

The Eurol Chain Lube Spray Cross & Off Road provides a protective coating to the outside of the chain, whilst the inside of the chain is lubricated through the use of creeping additives. By applying a coating to the outside of the chain, the chain spray offers corrosion protection, keeping the chain free from rust.

Eurol Chain Lube Spray Cross & Off Road is available in a sturdy 400 ml aerosol can for easy application.

To apply the product, clean the chain, apply a thin film of Eurol Chain Lube Spray Cross & Off Road to the chain and leave to work for 30 minutes. Remove any excess material with a dry cloth.

## Physical properties

Colour	Green	
Density at 20°C	0.899 kg/l	ASTM D 4052
Flash point	-20 °C	ASTM D 93

Article number E701314
