

Greases

Eurol Leather Grease

Universal Leather Grease

Description

Eurol Leather Grease is specially developed for leather care of cloths, shoes, jackets, saddles, etc. The leather will be conserved and will repel water- and dust after treatment with the leather grease.

Eurol Leather Grease consists of pure base oils and special greases. Because of the unique composition, the grease is well absorbed by the pores and preserves the leathers natural colour, flexibility and brilliance.

Eurol Leather Grease should be used regularly to prevent the leather from ageing.
