

Eurol Grease CS-2/101

Lubrication grease / anti corrosion agent

Description

Eurol Grease CS-2 / 101 with Eurol SYNGIS Technology is a high performance lubricating grease developed for extreme situations in e.g. the paper, cement and steel industry and heavy equipment in offshore and shipping.

Eurol Grease CS-2 / 101 is suitable for lubrication of:

- Open and closed bearings
- Cables and chains
- Autoclaves
- Steam valves
- Agricultural and fishing equipment
- Equipment working in extreme environments like (salt) water and high temperatures

Instructions for use

Clean the system thoroughly with Eurol Swift Clean 110 Spray
Suitable for automatic lubrication systems

Eurol Grease CS-2/101 has the following characteristics

Excellent anti wear and EP properties
Extreme protection against corrosion
Shear stable
Excellent water resistancy
Resistant to shock loads
Very good thermal and oxidation stability
Less oil bleeding, so very suitable for automatic lubrication systems
Economical in use

Physical properties

Colour	brown		
NLGI consistency	2		ASTM D 217
Thickener type	Calcium Sulfonate		
Density at 20°C	1.02	kg/l	ASTM D 1298
Base oil viscosity	300	cSt	ASTM D 445
Base oil type	Mineral		
Operating temperature	-30 – 140	°C	

Greases - Article number S005110
Version 1.0, 21-08-2015
