

Eurol E-HD Grease HY-2/104-S BIO

Exceptional efficiency, unmatched protection

Description

Fully synthetic lubricant grease based on Eurol Syngis technology, specifically developed for electrified heavy duty applications. This additive technology ensures exceptional energy efficiency and unmatched protection against wear in the most severe conditions. Eurol E-HD Grease HY-2/104-S BIO is readily biodegradable and therefore applicable for open lubrication points in environmentally sensitive areas.

Eurol E Heavy Duty Grease HY-2/104-S BIO resists water washout, is very easily pumpable over a wide temperature range and offers extreme wear protection. Eurol E Heavy Duty Grease HY-2/104-S BIO is recommended for use in open and closed lubrication points like bearings, slewing rings and hinges.

Instructions for use

Before applying the grease, clean the parts thoroughly

Eurol E-HD Grease HY-2/104-S BIO has the following characteristics

- Unmatched energy efficiency
- Exceptional wear protection
- Extremely low friction
- Very long product lifetime
- Extends system lifetime
- Extends battery cycle for electrified equipment

Physical properties

Colour	Beige	
NLGI consistency	2	ASTM D 217
Base oil viscosity	150	cSt ASTM D 445
Base oil type	Synthetic	
Operating temperature	-30 – 140	°C
